## USING YOUR VERGE

### ? HOW TO USE

1. Remove the mouthpiece and load in up to 0.5g of ground dry herbs. Replace the mouthpiece.
2. Click the main button 5x to turn on, the pulse wave technology will buzz and it will remember your last-used temperature.
3. Adjust the temperature (302-446F/150-230C) using the Up and Down buttons.

302°F 150°C 446°F 230°C

4. Click the main button 3x and then use "up" and "down" to adjust the session time (180 seconds-360 seconds).  
Press and hold the main button for 2 seconds to begin heating.
5. The device will buzz again once the desired temperature is reached.  
To adjust the temperature after the heat cycle has started, press "up" or "down" and then press the main button.
6. Press and hold the main button for 2 seconds to stop and restart the heating process.
7. Press and hold the main button to return to the menu at any time.
8. Click the main button 5x to turn off.

## CHARGING

The battery percentage is always displayed in the top right corner when the device is turned on.

- Use the Type-C charger to charge the device.
- While charging with the device turned on, the battery icon in the corner will show a charging symbol.
- While charging with the device turned off or dead:
- If battery power is under 10%, the large battery icon and % will be red.
- If battery power is 10-90%, the icon and % will be yellow.
- Battery icon turns green and shows a full battery icon when fully charged.
